Subject: Amendment compliance for Patent Application 10/804,709

Dear Mr White, Thank you for your email. I only received the mail from USPTO two days ago, so I can't possibly respond again sooner. However, I did respond within the specified time.

In your email, you state that the format for cancelled claims is acceptable, but the format for claims 15 - 27 is not, Why? I used the same format as described in the sample you sent.

I said, quote:
Claims 1 - 14 (Cancelled)
Claims 15 - 27 (New)

Due to your objections about not understanding clearly the invention, I changed the independent claims, which are claim 15, claim 20, claim 21, and these were written as new claims, and it stands to reason that all the rest, the dependent claims, must also be new, since they refer to new description.

Therefore, no claims are amended rejected, etc or any other status than new, since there has been no further response on new claims from yourself.

So I am including an attachment of the claims to this email which has redandantly included the word (new) before each claim.

I therefor object to the amendemant being non - compliant since I followed the sample exactly.

Sincerely
Charles Raymond
